

THROOP GAUGING WEIR FOOTBRIDGE

It is proposed to erect a temporary footbridge along the route shown on the plan below.

The work is currently programmed to start towards the end of July 2012. The actual start date will be subject to river flow levels.

Pedestrians will be diverted across the temporary bridge later this summer and the existing bridge closed.

Erection of a permanent replacement bridge is currently programmed for construction during the summer of 2013. Following this the temporary bridge will be removed.

If you would like further information about the work being undertaken, please call Dorset County Council on 01305 221000.
